PW6 - PW4 - PBk11

Si consiglia l'utilizzo di Medio d'impasto art. 5806632 (colore non pigmentato)
per evidenziare il sottotono dei colori Maimeri Puro poiché hanno una concentrazione
di pigmento molto elevata.
Oil Medium Eco art. 5826605 e Oil Cleaner Eco art. 5826611 sono ottime alternative
ai medium e ai solventi tradizionali.

We recommend the use of Clear Oil art. 5806632 (pigment free oil colour)
to highlight the undertone of the Maimeri Puro colours because they have a very high
concentration of pigment.
Oil Medium Eco art. 5826605 and Oil Cleaner Eco art. 5826611 are good alternatives
to the traditional mediums and solvents.

La serie Artisti conserva inalterati i toni scelti da Gianni Maimeri nel 1923, dove necessario sono stati sostituiti i pigmenti nocivi con ottime alternative che ne consentono un utilizzo in sicurezza. Non ci sono più controindicazioni nelle mescolanze tra colori. Oil Medium Eco art. 5826605 e Oil Cleaner Eco art. 5826611 sono ottime alternative ai medium e ai solventi tradizionali.

The Artisti series preserves unchanged the tones chosen by Gianni Maimeri in 1923, where it was necessary we have been replaced the harmful pigments with excellent alternatives which allow a safe use. There are no more contraindications in mixtures of colours. Oil Medium Eco art. 5826605 and Oil Cleaner Eco art. 5826611 are good alternatives to the traditional mediums and solvents.

 La serie Classico è una gamma extrafine pertanto i bianchi e tutti i colori chiari sono prodotti con oli non ingiallenti. Per la diluizione di queste tinte si consiglia quindi Olio di cartamo art. 5816648 con cui sono prodotte. Oil Medium Eco art. 5826605 e Oil Cleaner Eco art. 5826611 sono ottime alternative ai medium e ai solventi tradizionali.

The Classico serie is a extrafine range, then all the whites and light colors are produced with non-yellowing oils. For the dilution of these colors is suitable Safflower Oil art. 5816648 with which they are produced. Oil Medium Eco art. 5826605 and Oil Cleaner Eco art. 5826611 are good alternatives to the traditional mediums and solvents.

OIL MEDIUM ECO OIL CLEANER ECO

5826605

OIL MEDIUM ECO

- Medium ecologico ideale per tutti i colori a olio.
- Liquido simile all'acqua, incolore, dall'odore appena percepibile.
- Può essere utilizzato anche in luoghi chiusi senza provocare disturbi.
- Per gli olfatti estremamente sensibili si consiglia di arieggiare l'ambiente di lavoro, durante o dopo l'utilizzo.
- Si può utilizzare anche con un contagocce, per evitare gli sprechi, oppure miscelato al colore in quantità controllate.
- Si consiglia di non superare il 30% di prodotto rispetto al colore.
- Può essere travasato nel contenitore originale, e riutilizzato innumerevoli volte.

OIL MEDIUM ECO

- Ecologic medium suitable for all oil colours.
- Liquid like water, colourless, with a barely perceptible odour.
- It can be used indoors without causing disturbances.
- For very sensitive users the workplace should be ventilated during or after use.
- It can also be applied with a dropper to avoid waste or the product can be added to the colour in controlled quantity.
- It is advisable not to exceed 30% of Oil medium with respect to the colour.
- If clean, the remnants of Oil Medium can be returned to the original bottle after use and reused countless times.

5826611

OIL CLEANER ECO

- Detergente ecologico ideale per la pulizia degli strumenti di lavoro. Diluire leggermente con acqua o, in base allo sporco, utilizzare direttamente sul supporto con una spugna morbida.
- Ottimo per la pulizia del tubo in plastica tagliare la coda del tubo di poco sotto la saldatura. Versare il detergente puro o leggermente diluito con acqua, per ottenere la massima efficacia pulente, agitare bene, o utilizzare uno scovolino per raggiungere l'estremità opposta del tubo.

OIL CLEANER ECO

- Ecologic cleaner suitable for painting tools cleaning. Use the detergent slightly diluted with water or if necessary for a stronger action directly on the support with a soft sponge.
- Excellent for cleaning plastic tubes, cut the end of the tube just below the weld. Pour the detergent into the tube either pure or slightly diluted with water. In order to obtain maximum cleaning power shake well or use a bottlebrush to clean the low end of the tube.

5824693 - 5834693

Gesso
Gesso
Preparazione di fondo perfetta
per i colori Maimeri Acrilico.
Essicca in 30 minuti circa.
Ideal primer for Maimeri Acrilico
colours. It dries in about 30
minutes.

5924820

Gel lucido
Gloss Gel
Gel acrilico trasparente.
Aumenta la brillantezza e la
trasparenza dei colori.
Acrylic transparent gel. It incre-
ases brilliance and transparency
of colours.

5924821

Gel denso lucido
Gloss heavy gel
Gel acrilico denso trasparente.
Ideale per tecniche a spessore,
aumenta la brillantezza e la
trasparenza dei colori.
Acrylic transparent heavy
gel. Ideal for thick painting
techniques, it increases viscosity,
brilliance and transparency of
colours.

5924822

Gel opaco
Matt Gel
Gel acrilico opalino, non lucido.
Aumenta l'opacità
e la trasparenza dei colori.
Acrylic matt gel. It provides
a matt finish and increases
transparency of colours.

5924823

Gel denso opaco
Matt heavy gel
Gel acrilico denso trasparente.
Ideale per tecniche a spessore,
aumenta l'opacità e la trasparenza
dei colori.
Acrylic matt heavy gel. Ideal for thick
painting techniques, it increases
viscosity and transparency of colours
and provides a matt finish.

5924824

Gel ritardante
Retarder gel
Gel acrilico trasparente.
Rallenta l'essiccazione dei colori
acrilici e ne aumenta la brillantezza.
Acrylic transparent gel.
Acrylic transparent gel. It extends the
drying time of acrylic colours
and increases brilliance of colours.

5924825

Gel vetrificante
Glassy gel
Gel molto lucido e duro per colori
acrilici. Aggiunto ai colori li rende
più duri e resistenti.
Very gloss and hard gel for acrylic
colours. Added to colours it makes
them harder and more resistant.

5924830 - 5934830

Pasta per modellare densa
Heavy modelling paste
Pasta bianca densa miscelabile
con i colori acrilici, tende a sbiancare,
attenuare il tono dei colori.
Ideale per tecniche a spessore.
Thick white paste, can be mixed
with acrylic colors, it tends
to whiten, soften the tone of colours.
Ideal for thick painting techniques.

5924831 - 5934831

Pasta per modellare leggera
Light modelling paste
Pasta bianca molto leggera,
miscelabile con i colori acrilici tende
a sbiancare, attenuare il tono
dei colori. Ideale per tecniche
a spessore.
Very light white paste, can be mixed
with acrylic colors, it tends
to whiten, soften the tone of colours.
Ideal for thick painting techniques.

5934832

Pomice naturale grezza
Coarse natural pumice
Pasta densa di colore naturale,
contiene pomice a grana grossa.
Ideale per tecniche a spessore
ed effetti speciali.
Heavy natural paste, it contains
coarse pumice. Ideal for thick
painting techniques and special
effects.

5934833

Pomice naturale fine
Fine natural pumice
Pasta densa di colore naturale,
contiene pomice a grana fine.
Ideale per tecniche a spessore
ed effetti speciali.
Heavy natural paste, it contains
fine pumice. Ideal for thick painting
techniques and special effects.

5934834

Pomice bianca grezza
White coarse pumice
Pasta densa bianca, contiene pomice
sbiancata a grana grossa. Ideale
per tecniche a spessore ed effetti
speciali.
Heavy white paste, it contains coarse
bleached pumice. Ideal for thick
painting techniques and special
effects.

5924835

Pasta iridescente
Iridescent paste
Pasta acrilica bianca iridescente
a scaglia grossa, applicabile
a pennello o spatola. Mescolata
ai colori ne aumenta il volume
e l'iridescenza.
Acrylic white iridescent paste,
containing large mica flakes.
It can be applied with knife or brush.
Mixed with colours it increases
their volume and pearlescent effect.

5924840

Vernice finale lucida
Gloss final varnish
Vernice finale acrilica ad alta
viscosità, protegge il dipinto,
aumenta la brillantezza dei colori.
Applicare a colore asciutto,
diluendo leggermente.
High viscosity acrylic picture varnish,
it protects the painting and increases
the brilliance of colours.
Apply when the colour is dry, slightly
diluting.

Per aumentare la trasparenza degli acquerelli migliorando la brillantezza utilizzare Medio per acquerello art. 5816620. Si consiglia di non applicare vernici finali sui dipinti ad acquerello per non modificarne l'immediatezza del risultato.
To increase the transparency of watercolours improving their brightness use Watercolour Medium art. 5816620. It is recommended to not apply final varnish on watercolour paintings to not alter the watercolour effect.

 Per evitare il nascere di alterazioni di tono e addensamenti di colore non omogenei
si consiglia di utilizzare Fiele di bue art. 5816608 per la preparazione della carta
ed eventualmente anche miscelato al colore in piccole quantità.
To prevent changes of the tones and non-homogeneous colour areas,
use Ox Gall art. 5816608 for the preparation of the paper
and eventually mix it with the colour in small quantity.
